

## NOR 610, 615, 620, 625, 630 & 695 Datasheet

These threshold plates are made from durable aluminium and compliment the Norsound door bottom seals. They provide a level platform for the acoustic seal to locate against which ultimately leads to better noise attenuation.

### Key Benefits

- Durable T6060 Grade Aluminium.
- Satin Anodised Finish.
- Low Profile (Document 'M' Compliant).
- Screw Or Adhesive Fixing Option.

### Fitment Location

Fitted on the floor. Suitable for both single and double leaf doorsets.

### Seal Material

T6060 Aluminium with 25Micron Satin Anodised finish.

### Fixing

Supplied with fixing screws and plugs. Alternatively (with the exception of the NOR 695) the range has been designed to be glued to the ground using NOR 110 (Thresh-Hold™)

### Colour(s)

Satin Anodised
