

NOR 855 Datasheet

This Norsound wipe seal which is a great alternative to an automatic drop down seal. It works with a threshold plate to create a slightly raised area to avoid the seal wiping over the flooring. It also creates the dual air pockets synonymous with Norsound's products.

Key Benefits

- Dual air pocket technology to increase acoustic performance.
- Ultra soft smooth blades to minimise open / closing forces (Doc 'M').
- Excellent recovery values to increase service life.
- Suitable for single and double action doorsets.

Fitment Location

Single or double swing doors.

Min / Max Gap Size

7mm - 9mm.

Seal Material

Gasket - black. Holder - satin anodised.
Cover - silver.

Fixing

This seal can be surface mounted or semi-mortised. The aluminium is pre-drilled and slotted to allow for adjustment, supplied with fixing screws.
